

PRESSURE CLEANERS

Made in Australia
SINCE 1982

HE15-250P

Cold Water Cleaner

Specifications

- ⇒ 250 Bar (3626 psi) pump pressure
- ⇒ 300 Bar (4351 psi) EWP pressure (optional)
- ⇒ 15 Litres Per Minute pump volume
- ⇒ 13 hp Honda petrol engine
- ⇒ 1450 rpm low speed Interpump pump with gearbox reduction
- ⇒ Medium duty machine

Standard Equipment

- ⇒ 10 Metre high pressure hose
- ⇒ Insulated on/off pistol assembly
- ⇒ Double lance assembly
- ⇒ High and low pressure mode
- ⇒ Adjustable chemical injector
- ⇒ Operating and Maintenance manual

Features

Interpump with ceramic pistons and brass head

Inlet water filter

Pressure gauge

3-stage powder coated and zinc annealed chassis, ergonomically designed handle with 2 pneumatic wheels

Thermal safety protection valve

Benefits

Non-corrosive pump head to extend pump life and reduced maintenance costs

Stops debris from scoring pistons and seals

Easily monitor pump performance

Resistant to corrosion and greater manoeuvrability over tough terrain

Protects pump from over heating
