

PRESSURE CLEANERS

Made in Australia
SINCE 1982

HC12-180P

Cold Water Cleaner

Specifications

- ⇒ 2610 P.S.I. (180 Bar) pump pressure
- ⇒ 3700 P.S.I. turbo pressure (optional)
- ⇒ 12 Litres Per Minute pump volume
- ⇒ 6.5 H.P. Honda petrol motor
- ⇒ 3600 RPM pump
- ⇒ Medium duty machine

Standard Equipment

- ⇒ 8 Metres high pressure hose
- ⇒ Insulated on/off pistol assembly
- ⇒ Single lance assembly
- ⇒ High and Low pressure mode
- ⇒ Adjustable chemical injector with bottle
- ⇒ Operators and parts manuals

Features	Benefits
Interpump with ceramic pistons	Non-corrosive pump head to extend pump life and reduced maintenance costs
Inlet water filter	Stops debris from scoring pistons and seals
Pressure gauge	Easily monitor pump performance
3 Stage powder coated zinc annealed frame with 2 pneumatic wheels and rubber foot	Resistant to corrosion and greater manoeuvrability over tough terrain
Thermal Dump Valve Protection	Protects pump from overheating when in bypass
